**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Note the falling freezing level as colder air tucks in later in the day.

Forecast for Tuesday 01 Dec 2020
Weather: Clear spells and a frost overnight. Cloudy conditions expected to push steadily in from the west during daylight hours, the cloud well down by dusk with some drizzle and mist.

Maximum wind: West or Southwest 15 to 25mph.

Chance of cloud free mountain/hill tops above 800m: 80% overnight and early morning, any cloud near or above the summits. Around 50% by early afternoon, extensive cloud with base 600m or less soon pushing into Mull and Moidart, then extending east in the afternoon, leaving all the area 30% or less by dusk.

Visibility: Very good or excellent overnight and early morning. Becoming moderate or poor at times from the west during the day, very poor at times at height by dusk.

Temperature: **Glens:** Minus 2 Celsius rising to Plus 6 Celsius
At 800m: Zero Celsius rising to Plus 4 Celsius
Freezing level: Well down at first, rising above the summits by dusk.
